What do you see that is bad for the environment in this picture?

Everyone can help! Do your part!

Make a list below of what you can do in your neighborhood to help keep our environment clean.

**Planting trees and
other plants help
clean the air!**

Everything you do will help make a difference.

You can plant trees and other plants and flowers. You can build a compost to recycle your yard waste. There are many environmental groups that are concerned with protecting our planet. Is there one in your community that you can join?

Oh no!

Litter looks
bad and is
harmful to the
environment!

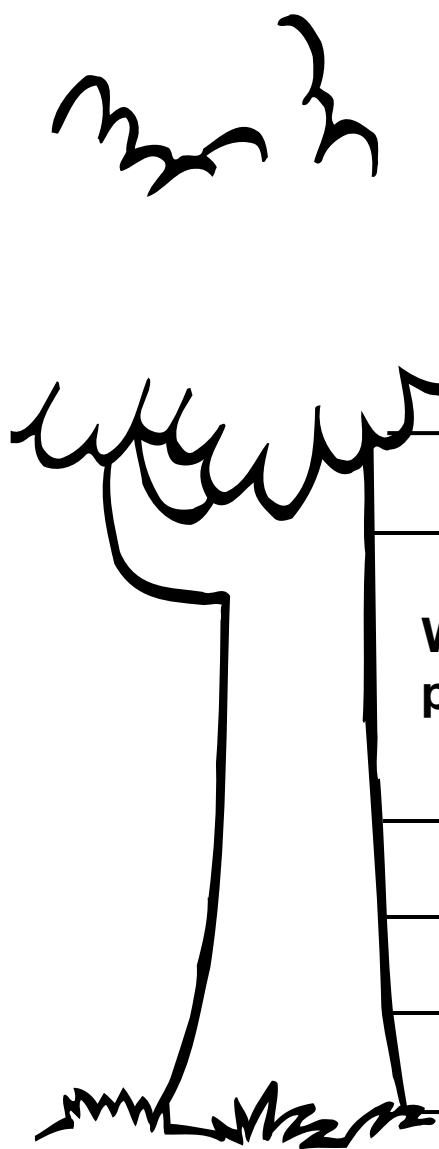

Litter does more than just look bad. When trash is not disposed of properly it creates an environmental hazard. Some things do not decompose quickly. Other items put harmful elements into the ground as they decompose that pollute the soil and water.

**What
else can
you do?**

**What are some
ways you can
help save water?**

**What are some ways you
can help save energy?**

**What are some ways you can help
prevent pollution?**

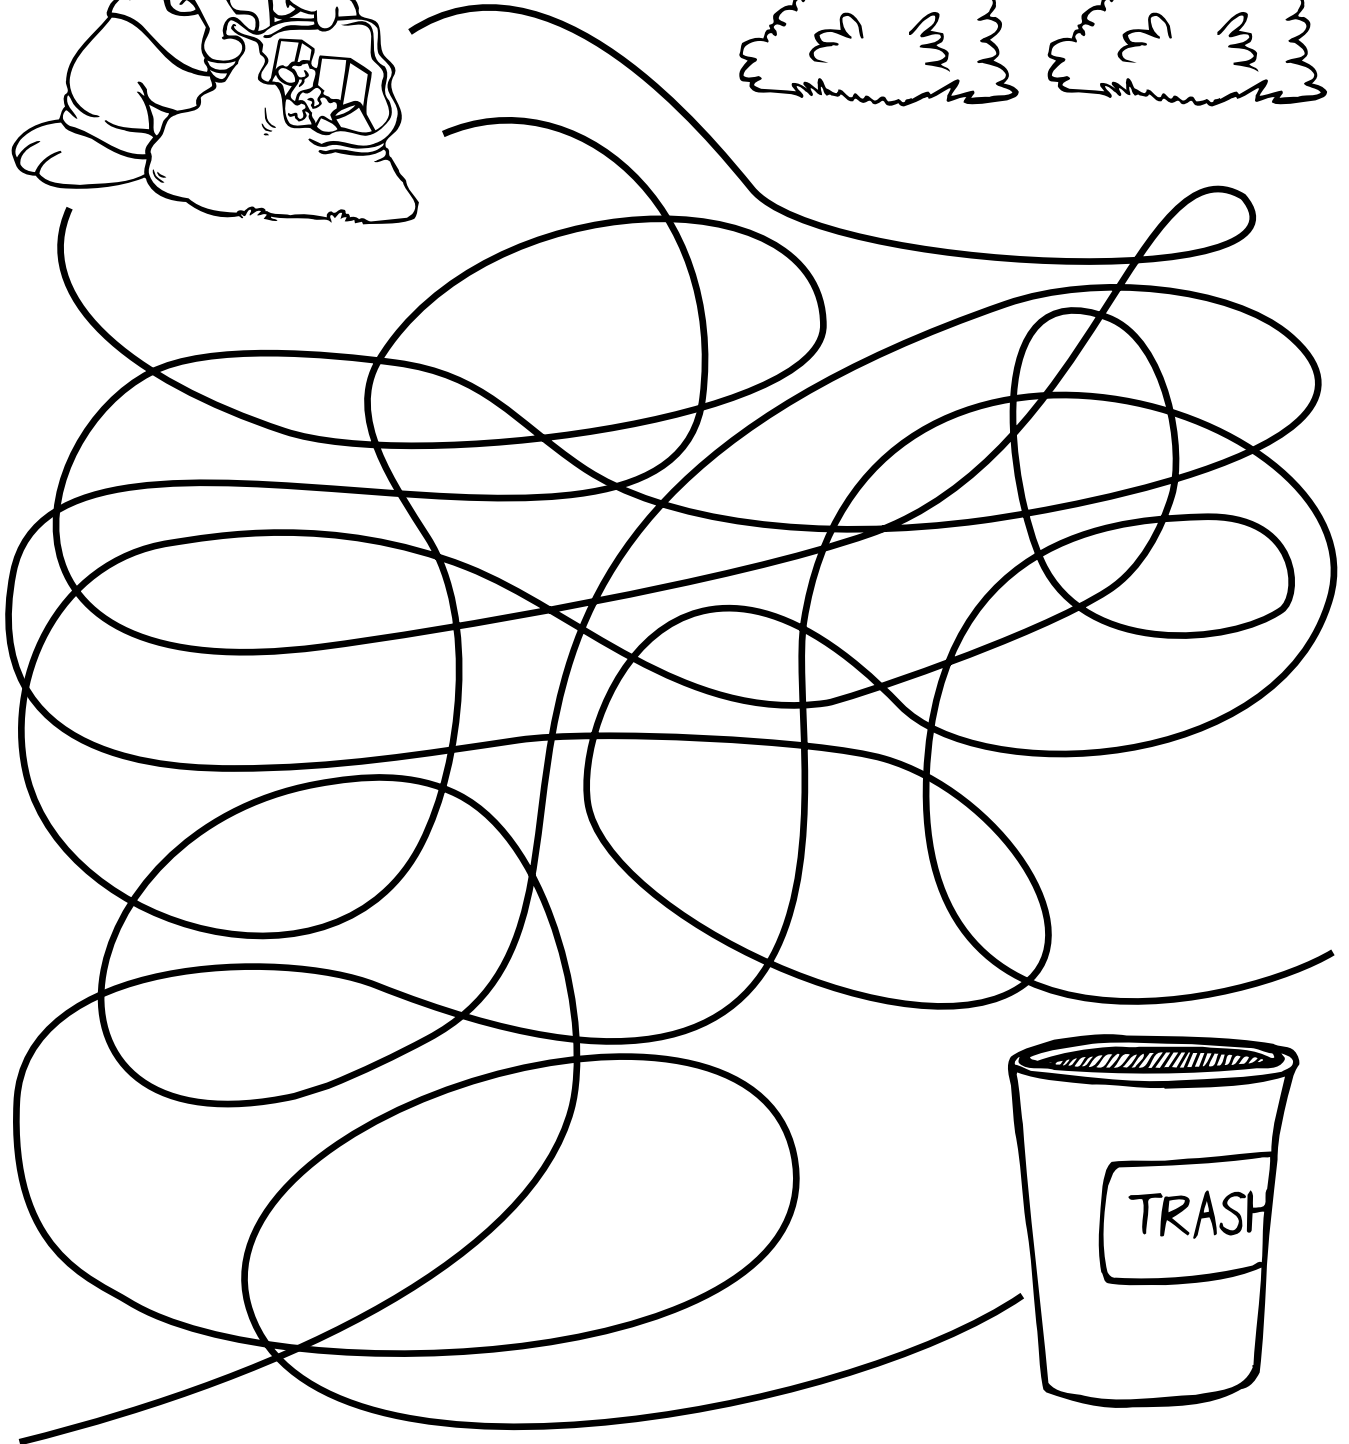

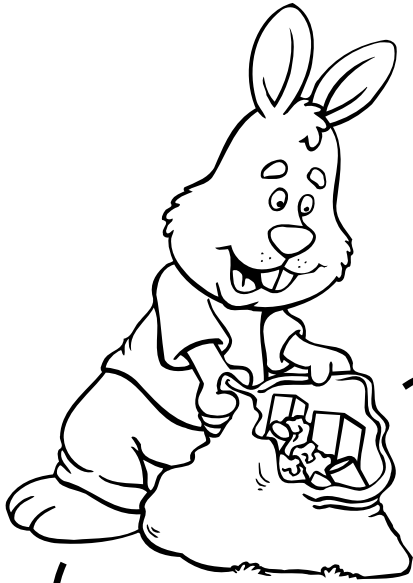

Handwriting practice lines consisting of horizontal lines with a wavy left edge, resembling a tree's canopy. There are four sets of these lines, each corresponding to one of the questions on the page. Each set includes a question and several blank lines for writing an answer.

Never litter!

Help keep our planet clean! Always put your trash in the appropriate containers. You can also help by picking up any litter and putting it in the trash container.

**Follow the line that
will help the rabbit
throw out the trash!**
