

**Wind is also a good source
of energy!**

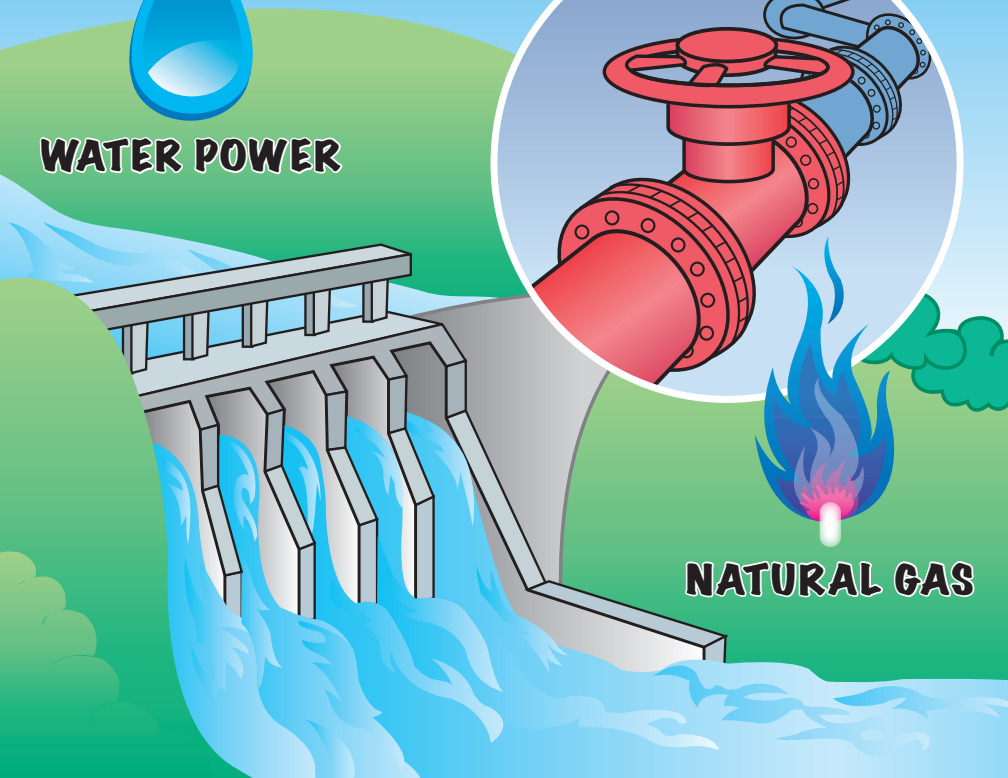

The earth provides other natural resources to help make energy!

WATER POWER

NATURAL GAS

**Use alternative fuel instead
of gasoline in you car!**

BIO-FUEL

**...comes from natural
products like corn!**

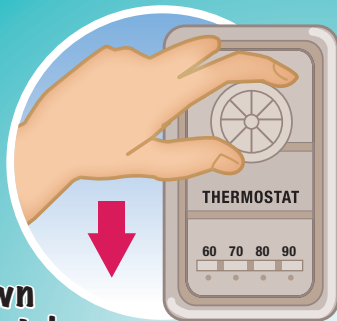

**Save energy by driving
fuel efficient cars that don't
use a lot of gasoline.**

**Or save even more by riding your bike
or walking, instead of driving.**

Save energy in your home, too!

**Turn down
thermostats!**

**Turn off
water!**

**Use energy saving
lightbulbs!**

**Close
refrigerator door!**

**Be sure to turn off the lights when
you leave a room.**

Saving Energy WORD JUMBLE!
