

Firefighters are men and women who are trained to put out fires, rescue people, and help in other emergencies.

**The trained people at the fire department
can teach you to call 9-1-1 and have
a home fire escape plan.**

Fire
Safety Week

9-1-1

Firefighters drive fire engines. They wear special hats, suits and boots that help protect them.

Members of the fire department are always on call to help keep you safe.

**Firefighters explain and help you
understand the safety rules.
They want you to be safe at
home and in school!**

Call 9-1-1 for Emergency!

- Never touch matches, lighters or candles!
- Have a family escape plan in case of fire and practice it!
- Know how to call 9-1-1 in an emergency!
- Learn the practice of STOP, DROP and ROLL!
- Remind your parents to test the smoke alarms in your house.
- Learn the rules of escape! Feel the door for heat before opening, get low to the floor and get out as fast as you can.
- Locate the exits when you enter a new building.

**Firefighters are brave men and women
that help in an emergency.
Someday, a firefighter is what I want to be!**
